I need to have these search results back in 7 days. I am submitting as a Rush request only because the searches have been taking about 7-10 days recently. If the search time has improved, then I leave it up to the searcher to place this in the cue as appropriate, as long as I get the results back by next Thursday.

Please forward to STIC:

Application Serial No. 09/750,456

I would like a Rush sequence search for this case.

Please search on SEQ ID No. 393.

Thanks.
